

Strategic plan, July 2026 to June 2028

Draft for the board to adopt. Not yet adopted. Community sleeping on durable, fit-for-purpose beds, building the products, and earning inside community-run enterprises.

What we are doing

Create local jobs and income from the goods communities need. We start with beds made from recycled plastic: people get a suitable place to sleep, community organisations earn from selling them, and communities build their own production where they are ready.

Year one, to June 2027

1. Make and deliver 400 beds of first stock, 100 to each of 4 community organisations, with the rules for each agreed before any bed moves.
2. Build two community production facilities where communities have asked, at a \$150,000 planning allowance each.
3. Measure the cost of a bed made locally: paid hours, weighed plastic, scrap and freight, on the first fifty beds from each site.
4. Settle governance: the full constitution, audited accounts at the AGM, the member register, and the proposal that community organisations become members.

Year two, to June 2028

1. Sell 874 beds, the number at which beds carry the \$251,224 running cost with no grant.
2. Bring both community facilities to pace, from 200 beds in a first year toward 720.
3. Begin repaying the first-year loan from the beds Goods on Country sells.
4. Answer the month-six questions at each site and report them whichever way they fall.

Measures

MEASURE	YEAR ONE	YEAR TWO	LABEL
Beds sold or placed	400	874	target
Community organisations holding stock	4	4 or more	target
Community production facilities standing	2	2	target
Paid hours of making, at 2 hours a bed	800	1,748	modelled
Recycled plastic in beds, at 20 kg a bed	8,000 kg	17,480 kg	modelled
Beds followed up at delivery, six weeks and three months	50	to set	target
Share of running cost carried by beds	about 46%	100%	modelled

Risks the board watches

- The make cost of about \$262 is provisional until the bought leg-panel yield is confirmed.
- Nothing in the raise is signed. The year's beds depend on three grants, one not yet sent.
- A community may decline a facility. It then goes to another community that passes the same tests.
- The loan is repaid from beds sold; slower sales stretch it.
