

Turn the dials

Change the *fur* inputs and the *fnancial* model recomputes unit cost, P&L and cash*fw*ow. One engine, *fur* levers, three answers.

The model is scenario-aware: turn a dial (volume, method, founder time, opening cash) and unit cost, P&L and cashflow all update together.

Source: Goods financial model (2026-05). Founder-rate and FTE inputs and opening cash are pending confirmation.
